## Pinboard

Navigate to the page of your choice, click the pin button in the bottom left of your screen and store pages to read later.

### How does it work?

When you click on the 'Pin' button, the page you are on is added to a list of pages associated to you as a user of the website.

You need to confirm you want to pin the page by answering the question below (note: the question will only appear when you have pinned pages that you still need to confirm).

Your selection will be stored on your personal pinboard for the next 30 days.

A summary of your current pinned pages is displayed below.

Please note that you must have [cookies](#) enabled to use this feature. Make sure that cookies are not deleted when you close your browser.
