Understanding Extreme Geohazards: The Science of the Disaster Risk Management Cycle

Extreme geohazards are the cause of major disasters. Most of the lives and property lost to disasters caused by geohazards are lost during extreme events. Although extreme geohazards are infrequent and restricted to certain geographical regions, their potential impact is huge and of global scale.

Earth System Science and Environmental Management (ESSEM)

Registration closed

23 November 2011
Historical House of Blackheads, Tallinn, Estonia

External events

Estonia celebrates COST's 40th anniversary

Estonian researchers, politicians and journalists met in the historical House of Blackheads to celebrate COST's 40th anniversary.

Information item

17 - 18 November 2011
Natural History Museum, London, UK

Seminars

Advanced Science Communication Training (5th edition)

COST offered its Actions' Chairs, Vice-Chairs and members with responsibility for communications unique training opportunities to maximise their Action communication potential.

Upon invitation only

15 November 2011
Ministry of Education Youth and Sports, Czech Republic

External events

COST Impact Day Czech Republic

One day conference on the occasion of 40th anniversary of COST.

Information item

08 - 09 November 2011
The Square, Brussels, Belgium

COST-ESF events

European Gender Summit - Quality Research and Innovation through Equality

The first European Gender Summit provided a forum for stakeholders from research, industry and policy to jointly explore how gendered methodologies can stimulate innovation and advance scientific excellence. The summit will map the current state of knowledge, provide a forum for interdisciplinary debate and draw up concrete action plans for research and innovation policy.

Ended

07 - 11 November 2011
Surfers Paradise Marriott Resort & Spa, Qld, Australia

External events

International Conference Energy & Meteorology (ICEM) 2011

Energy & Meteorology 2011 provided a great opportunity to network with scientists, engineers, economists, policy makers and other specialists working at the junction between weather, climate and energy.

Earth System Science and Environmental Management (ESSEM)

Information item

06 - 11 November 2011
Vienna, Austria

COST-ESF events

The Future Role of Bio-energy from Tree Biomass in Europe

Ended

The Directive on the promotion of energy from renewable sources (RES-D; Directive 2009/28/EC) sets a binding target for the EU to achieve a 20 % renewable energy share by 2020, in which the largest contribution is expected to come from biomass from agriculture, forestry and waste for heat and power generation as well as transport fuels.

Earth System Science and Environmental Management (ESSEM)
Forests, their Products and Services (FPS)

03 - 04 November 2011
IBZ (Internationales
Begegnungszentrum der
Wissenschaften) Munich,
Germany

External events

▶ **Workshop on Value Communication of Novel Agro-technologies**

A Trans Domain COST activity where researchers from COST Actions FA0806, FA0804, FA1006 and FP0905 COST Actions shared their specific scientific experience with experts in the Science Communication field on the issue of bringing novel biotechnological products from lab to practice.

Food and Agriculture (FA)
Forests, their Products and Services (FPS)

Information item

23 - 28 October 2011
Crete, Greece

COST-ESF events

▶ **Systems Chemistry III**

COST was celebrating the International Year of Chemistry with its third edition of the COST-ESF High-level Research Conference series on Systems Chemistry that took place in October 2011 in Crete/Greece.

Chemistry and Molecular Sciences and Technologies (CMST)

Application open

18 - 20 October 2011
European Parliament,
Brussels, Belgium

COST Action events

▶ **Networks of Science and Technology: a COST exhibition**

COST held an exhibition in the European Parliament, Brussels, showcasing the 'networks of science and technology' that COST Actions have been creating across Europe.
