Events

FET09 - Science Beyond Fiction

Location	Prague, Czech Republic
Date	21 - 23 April 2009
Calendar file	.vcs .ics

Some of today's radical ideas and trends will become the everyday reality of tomorrow. Over three days, FET09 offered a creative conversation to give scientists and policy-makers the opportunity to give meaning to what lies ahead of us.

The COST ICT Domain joined outstanding international keynote speakers when they presented a session on the future effects of ICT research in our society. An interactive open space and exhibition featured demonstrations of the latest from the labs and provided an opportunity for spontaneous interactions and sessions. A stimulating evening programme provided an entertaining and lively backdrop to our interdisciplinary conversations.
