COP15 Welcomes COST to Copenhagen

An exciting line-up of activities involving COST is set to take place at the COP15 Conference.

COST delegates will join some of World's top leaders at the [COP15](#) Conference in Copenhagen.

Activities will start with a side event on options for including nitrogen management in climate policy development, taking place on Monday 7 December 2009 between 18:00 and 19:00. Jan Willem Erisman, Chair of [COST Action 729](#) Assessing and Managing Nitrogen Fluxes in the Atmosphere-Biosphere System in Europe from the Energy Research Centre of The Netherlands, will present the results of his [Action](#).

On Friday 18 December 2009, Anna Osann will join the EC DG RTD-Environment side event. She will take this opportunity to communicate the results of the [Water and Energy Links](#) initiative developed by COST and the Australian National University.

Through a series of Exploratory Workshops, participants from Europe and beyond examined the links between water and energy in urban water supplies, the energy sector, food security and other industrial sectors. A list of recommendations has now been published.

COST will also join the debate on climate change TV and talk about its support for [Actions](#) on this widely important topic.

COST is supported by the EU
RTD Framework Programme

ESF provides the COST
Office through a European
Commission contract

The Council of the European
Union provides the COST
Secretariat
