## Events

### EUROPEAN FORUM for INNOVATION (EFI) 2010

Location	Trento, Italy
Date	23 - 25 June 2010
Calendar file	<a href="#">vcs</a> <a href="#">ics</a>

**The European Alliance for Innovation (EAI) organised – in collaboration with CREATE-NET and the Autonomous Province of Trento (Italy) – a EUROPEAN FORUM for INNOVATION (EFI).**

The Forum draft agenda included one day dedicated to interventions by European Union officials, major industry representatives and EAI partners. The second half of the event hosted Science for Innovation, Business and Technology (SIB) Councils workshops, as well as a B2B funding event.

The Forum for Innovation tackled issues ranging from the general query "What is Innovation?" to more concrete open sessions and workshops addressing the current European *status quo* in technology and the innovation cycle.

EAI is a pan-European movement that aims at promoting and fostering innovation at all steps of the innovation cycle within all technology domains impacted by Information and Communication Technologies (ICT).

### Registration

Ended

### Workshop Registration

If you wish to attend the event, please contact the organisers directly.
