Subject: COST “Customer” Satisfaction Survey 2018

Dear COST participant,

On behalf of the COST Association, I first want to thank you for your participation and engagement in our program, whether as an Action participant, as a grant holder or as a proposer. Without the thousands of researchers and innovators participating in COST Actions, the COST framework would not be what it is today.

In December 2017, COST adopted its new Strategic Plan, for 2018 until the end of the next EU Framework Programme for Research & Innovation. This Strategic Plan underlines our ambition to remain the leading networking tool in European research. In order to do so, COST has three strategic priorities: promoting and spreading excellent research, fostering interdisciplinary research for breakthrough science, and empowering and retaining young researchers and innovators.

These three priorities have something in common: they are all about you, our participants. Your engagement is invaluable in making COST Actions work, now and in the future. We are committed to serving all currently engaged in our COST Actions. With your input and feedback, we can make the COST Actions and their networking activities an even greater success in the future. As such, I would kindly invite you to share your thoughts on COST through our “Customer” Satisfaction Survey. We are looking forward to your contribution.

With the best regards,

Ronald de Bruin
Director of the COST Association
