

COST Exploratory Workshop
Animal Nutrition and Health -
Benefitting from Research Networks

Tuesday 20 and Wednesday 21 April 2010

Prins Claus Congreszaal, Jaarbeurs, Utrecht, The Netherlands

Workshop Agenda

Day 1 - Tuesday 20 April 2010

13:30 - 13:45 COST Presentation

13:45 - 14:00 EUREKA/EuroAgriFoodchain presentation

14:00 - 15:30 Pig Development and Health

Chaired by: **Tomasz Stadejek**, National Veterinary Research Institute, Poland

14:00 - 14:30	Elisabetta Giuffra	Parco Tecnologica Padano - Polo Universitario, Italy FA861: European network for pig genomics
14:30 - 15:00	Tahar Ait-Ali	The University of Edinburgh, The Roslin Institute, United Kingdom FA902: Understanding and combating porcine reproductive and respiratory syndrome in Europe
15:00 - 15:30	Lars Larsen	Technical University of Copenhagen, Denmark General overview of porcine reproductive and respiratory syndrome virus diagnostics

15:30 - 16:00 Coffee Break

16:00 – 17:00 Pig Development and Health (continued)

Chaired by: **Elisabetta Giuffra**, Parco Tecnologica Padano - Polo Universitario, Italy

16:00 - 16:30	Tomasz Stadejek	National Veterinary Research Institute, Poland Genetic diversity of PRRSV in Eastern Europe: Clues to PRRSV Emergence
16:30 - 17:00	Jan Merks	Institute for Pig Genetics B.V., The Netherlands The contribution of pig breeding to improve pig health and production

17:00 - 18:00 Concluding Remarks

Day 2 - Wednesday 21 April 2010

09:00 - 12:30 Aquaculture

Chaired by **Ulf Erikson**, SINTEF Fisheries and Aquaculture, Norway

09:00 - 09:30	Tim Atask	Viking Fish Farms Ltd, Ardtoe Marine Laboratory, United Kingdom An outline of marine larval fish production technology
09:30 - 10:00	Karin Pittman	University of Bergen, Department of Zoology, Norway Larval quality and its effect on aquaculture economics
10:00 - 10:30	Pascal Divanach	Hellenic Center of Marine Research, Crete, Greece Domestication of seabream: A great story of challenges, intensive research and development with a successful end

10:30 - 11:00 Coffee Break

11:00 - 11:30	Amos Tandler	Israel Oceanographic and Limnological Research, National Center for Mariculture, Eilat, Israel Larvanet: A network looking at critical success factors for fish larval production in European Aquaculture
11:30 - 12:00	Luis Conceição	Center of Marine Sciences CCMAR/ University of Algarve, Portugal Welfare and new feed sources in farmed fish
12:00 - 12:30	Öivin Överli Anders Kiessling	Norwegian University of Life Sciences, Norway Welfare as tool to define the biological limitations in modern fish farming

12:30 - 14:00 Lunch

14:00 - 17:00 Animal Nutrition

Chaired by: **Karin Pittman**, University of Bergen, Department of Zoology, Norway

14:00 - 14:30	Luciano Pinotti	University of Milan, Italy Feed for Health a new European initiative
14:30 - 15:00	Wim Verbeke	University of Ghent, Belgium Consumer interest in meat safety: from crises to trust
15:00 - 15:30	Chris Knight	University of Copenhagen, Faculty of Life Sciences, Denmark Food of Life: a new way of teaching the science of animal-derived foods

15:30 - 16:00 Coffee Break

16:00 - 16:30	Ian Givens	University of Reading, UK Eggs as sources of dietary lipids: can they be improved?
16:30 - 17:00	Ulf Erikson	SINTEF Fisheries and Aquaculture, Norway The link between welfare, meat quality and large scale slaughter of farmed fish

17:00 - 17:30 General Discussion

17:30 Workshop End
