

COST highlights

COST Actions turn the spotlight on Portugal

The e-COST tool reopens for submissions

What would you like the new COST website to be? We'd love to hear from you!

Science & technology focus

Researchers uncover the origins of ash tree dieback and set out ways to fight it

COST Action EURNEGVEC publishes guidelines for diagnosing vector borne-diseases

Events

**CITIZEN SCIENCE AND OPEN DATA: A MODEL FOR INVASIVE ALIEN SPECIES IN EUROPE
A JRC-COST JOINT WORKSHOP**
8 FEBRUARY 2017 | BRUSSELS

The workshop focused on strategies for collecting and sharing data gathered by citizens, with the aim to support a European early warning and rapid information system. Speakers' presentations are available for download.

**AGEING AND TECHNOLOGY
A COST-AAL-MYBL JOINT WORKSHOP**
9-10 FEBRUARY 2017 | BRUSSELS

The event brought together the research community and technology developers to find ways to provide better ICT-enriched living environments for the elderly, leading to technologies that "older people" actually use. Speakers' presentations will be available shortly.
