# Climax of an exciting series of events...

	Thursday June 10	Friday June 11	Saturday June 12	Sunday June 13	Monday June 14	Tuesday June 15
<b>A new Golden Age for Radio Astronomy</b>	■				■	
First results from the new generation of radio telescopes						
Resort Hof van Saksen, Assen, The Netherlands						
<b>Inauguration of LOFAR</b>			■			
LOFAR Core, Exloo, The Netherlands						
<b>Connect Industry, Science &amp; Society Workshop</b>					■	
Resort Hof van Saksen, Assen, The Netherlands						
<b>Agencies SKA Group Meeting</b>					■	
Resort Hof van Saksen, Assen, The Netherlands						
<b>International SKA Forum 2010 - "SKA beyond Science"</b>						■
TT Exhibition Hall, Assen, The Netherlands						

# SKA Beyond Astronomy

At the SKA Forum some 300 scientists, science policy makers, and industrial partners join in a one day event discussing the status and future of the project

The program will focus on the relevance and importance of the SKA beyond its scientific application in astronomy, including technological innovation, industrial development, renewable energy, sharing of knowledge and education.

### **Part I: Welcome and addresses**

*Including presentations from South-Africa and Australia:  
Hosting the SKA and impact on society*

### **Part II: SKA for Science and Education**

*The impact of SKA on education and capability building*

*Keynote: The big questions in astronomy*

*Forum Discussion: The SKA's reply to the big questions*

*Presentations and events on SKA & Education*

### **Part III: SKA for Industry and Innovation**

*Connecting and involving industry and society on SKA*

*Keynote: Big science for society*

*Forum Discussion: SKA technology as enables for industry and innovation*

*Presentation and events on SKA & Innovation*

### **Part IV: Exhibition**

*Science, education, outreach, industry consortia, precursors,  
Presentation areas for flash-talks*

Results of this  
COST workshop
