“ A COST Action provides a unique platform for encouraging academic and cultural diversity among researchers, stakeholders and practitioners throughout Europe. The Action enhances tacit and explicit knowledge transfer and knowledge sharing within the academic community, mitigating disparities inherited from the political and economic division of Europe. It supports expansion of knowledge production to meet our societal and technological challenges leading to an increase in economic prosperity and competitiveness and improving the quality of life of all people. ”

Dr Pavel Bednář, head of the Department of Regional Development, Public Administration and Law Tomas Bata University, Zlín
