MAKING THE HEADLINES

The screenshot shows the top of a Times of Malta article. The header includes the newspaper's name and navigation tabs for various sections like Latest, National, World, Opinion, Community, Sport, Motoring, Business, and Entertainment. The main headline is "Dwindling habitats and plummeting partnerships" in a large, bold font. Below the headline, there are social media sharing icons for Facebook, Twitter, LinkedIn, and Email. The article features a grid of 15 small images (labeled a through o) showing various insects, including bees and butterflies, interacting with flowers. Below the images, there is a caption: "Examples of some pollinators of *Taraxacum officinale* var. *subulatum*. Photo: Sara Mardian". The main text of the article begins with a paragraph about habitat loss and its impact on biodiversity and species interactions. A sidebar on the right contains an advertisement for Siemens, featuring the text "SIEMENS 7 YEAR GUARANTEE" and "The future moving in." Below the advertisement, there is a "Popular Tags" section.

It is fostering local collaboration between two researchers who might otherwise not have had direct opportunity to work together, being in different fields (AI and linguistics). COST provides an opportunity for fresh networking outside the usual comfort zones, as in my case, I'm a linguist and I'm trying to learn about GWAPs and data harvesting!

Dr Sarah Grech, Lecturer, Institute of Linguistics and Language Technology, University of Malta
