RUNNING ACTIONS LED BY ISRAEL

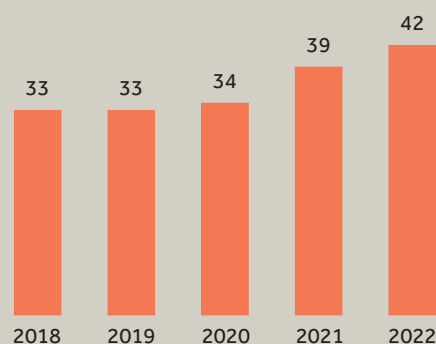

Examples of Chaired and Vice Chaired Actions

- Stem cells of marine/aquatic invertebrates: from basic research to innovative applications
- European Network for Problematic Usage of the Internet
- European network for Gynaecological Rare Cancer research: From Concept to Cure
- Implementation Research Network in Stroke Care Quality - IRENE
- Computational materials sciences for efficient water splitting with nanocrystals from abundant elements
- Network on evidence-based physical activity in old age

As an expert in the psychology of technology users and digital learning, I am aware of the critical role that digitalization plays in our daily lives. Participating in the GIGI-net COST Action helped me to develop a deeper understanding of the effect of digitalization on older workers and to create networks with researchers around Europe. The rapid changes in technologies these days, along with the extended life expectancy obliges us to pay attention to the issue and to think about what actions are needed.

Dr Eyal Rabin, Associate Researcher,
 The Center of Innovation in Educational Technology,
 The Open University of Israel
