BUDGET RECEIVED

100,331.66 €

COST Actions give the researchers of Moldova the possibility to travel and meet leading scientists in their domains, join state-of-the-art research at leading European universities, and exchange ideas and results of their work.

Dr Victoria Bobicev, Associate Professor, Department of Computer Science and Systems Engineering, Technical University of Moldova, Chişinău

For the Moldovan scientific community, COST Actions represent an open, durable network and a regular exchange of scientific ideas. You can create new cooperations and develop pre-existing collaborations whilst connecting young researchers to career opportunities. They are an open gate towards the European Research Area.

Dr Svetlana Codreanu, Senior Scientific Researcher at Institute of Microbiology and Biotechnology, Technical University of Moldova, Chişinău
