Teresa Herdeiro: “Communication is a crucial factor for doctors to convey the importance of changing attitudes and behaviors to their patients”

<https://www.jornalmedico.pt/entrevista/42555-teresa-herdeiro-a-comunicacao-e-um-fator-crucial-para-os-medicos-transmitirem-a-importancia-de-alteracao-de-atitudes-e-comportamentos-aos-seus-doentes.html>

“

I strongly recommend all colleagues to join and be active in a COST Action. SeaWheat is my first participation but clearly exceeds my expectations. The networking opportunities with colleagues from different countries and working areas are many. Furthermore, those moments are at the right scale (not like a congresses with hundreds of people) and therefore much more interactive, focused, and fruitful.

Dr Rui Pereira, Head of Seaweed Division, A4F Algafuel S.A. (SME)

“

Being involved in the COST Action TRACTS has enabled me to expand, deepen, and disseminate my research, namely through the support of a Short-Term Scientific Mission, which resulted in a published paper and several public presentations. Furthermore, through the many events, I had the chance to interact with several colleagues working on similar topics and with similar methodological approaches. As a whole, it has also helped me to reposition within Portugal's academic milieu.

Dr Inês Beleza Barreiros, Researcher at ICNOVA, School of Social Sciences and Humanities, Nova University of Lisbon
