Participating in a COST Action gave me the chance to know who are the most prestigious scientists working on Marine Animal Forests (MAFs) and provided the opportunity to collaborate with several people. After I joined the 'Marine Animal Forest of the World' COST Action I am more motivated to work on MAFs and my study area is more focused. I can highly recommend this Action to my colleagues.

Assoc. Prof. Dr. Ömer Gürkan Dilek, Faculty of Veterinary Medicine, University of Mehmet Akif Ersoy, İstiklal Campus, Burdur

Participating in COST as an ITC country member is a priceless opportunity for me. I enlarged my network with amazing people from my field with whom I probably wouldn't usually meet. I never had a chance to work with people from another country until I joined COST. I have had the opportunity to join conferences and meet more academics thanks to COST's dissemination grants. I've also worked on research with other Action members through STSMs. I also had an opportunity to be a partner in two Horizon Europe project proposals with the members I met in COST Actions.

Zeynep Şahin Timar, Ph.D.,
Department of Software Engineering, Karadeniz Technical University, Ortahisar
