TESTIMONIAL

"COST networks are the most fruitful means of cooperation between scientists from different countries, providing opportunities for young researchers to work with leading research groups from different European countries. I've been involved in COST activities since 2004 and have so far set up several research projects, but the original contacts and ideas developed during the COST Actions."

PROF. ALBERT PORCAR CASTELL
University of Helsinki, Finland,
WG member of SENSECO Action

**EXAMPLES OF ACTIONS
WITH LEADERSHIP POSITIONS**

* *The arrow icon is a clickable
  link to each Action*

→ Improving biomedical research
  by automated behaviour monitoring
  in the animal home-cage

→ A European forum for revitalisation
  of marginalised mountain areas

→ Grassroots of digital Europe: from historic
  to contemporary cultures of creative
  computing

→ Democratization at stake?
  Comparing anti-gender politics
  in CEE and NME countries

→ Extreme plasma network
  for advanced discovery
