TESTIMONIAL

"Thanks to the Action work, patients have a better chance of receiving proper treatment. Furthermore, we have at our fingertips big data to harvest information critical to define treatments including the molecular structure of the disease, biomarkers and other parameters which aid in the prevention, diagnosis and proper monitoring of the patient's condition."

PROF. HELEN PAPADAKI

University of Crete, Greece,
Chair of EuNet-INNOCHRON Action

EXAMPLES OF ACTIONS WITH LEADERSHIP POSITIONS

* *The arrow icon is a clickable
link to each Action*

- Data matters: sociotechnical challenges of European migration and border control
- European network on extreme fire behavior
- Relativistic quantum Information
- Topological textures in condensed matter
- Linking euroscepticism and populism: causes and consequences
- Magnetic particle imaging for next-generation theranostics and medical research
- European atmospheric research lidar cooperation on science and technology
- Network for the advancement of neutropenia research and patient support

MAKING THE HEADLINES

RESEARCHERS DISCUSS INCLUSION, POPULISM AND EUROSCEPTICISM

News about the EUPopLink Action, which is coordinated by Professor Ioannis Andreadis of the School of Political Sciences at the Aristotle University of Thessaloniki.
