COUNTRY REPRESENTATION IN COST ACTIONS

LEADERSHIP POSITIONS IN COST ACTIONS

A CLOSE LOOK AT LEADERSHIP POSITIONS

■ Women ■ Men /// Younger researchers

“COST Actions are key mechanisms for engaging researchers across the EU in collaborative ventures. They are of particular importance for new researchers and for those from small countries whose research structure is poorly developed. I do not know of any similar scheme that provides such an outcome from such limited resources.”

John Simmie, Full Professor,
National University of Ireland

“COST networks provide the ideal avenue for bringing experts together to engage in innovative research to address some of the pressing problems in society such as air pollution, global warming, drought, desertification and ultimately, climate change and global warming.”

Tine Ningal, Researcher, University College Dublin

EU research network set up to tackle internet's dark side

Gambling, pornography, bullying and excessive social media use in group's crosshairs

© Thu, Oct 11, 2018, 05:25

Marie Boran

"We don't know the real scale of the problem"

A new European research network has been launched to look at problematic internet use including gambling, pornography, bullying and excessive social media use. The European Problematic Use of the Internet (EU-PUI) Research Network has been awarded €520,000 in EU funding that will be funnelled into research on how internet use might affect public health, specifically mental health and wellbeing.
