REPRESENTING INSTITUTIONS

- Ministry of Education and Scientific Research
RUNNING ACTIONS LED BY ROMANIA

Examples of Chaired and Vice Chaired Actions

- European Network for Combining Language Learning with Crowdsourcing Techniques
- European network to advance carotenoid research and applications in agro-food and health (EUROCAROTEN)
- Police Stops
- Reappraising Intellectual Debates on Civic Rights and Democracy in Europe
- Biomaterials and advanced physical techniques for regenerative cardiology and neurology
- European Energy Poverty: Agenda Co-Creation and Knowledge Innovation
- Indoor living space improvement: Smart Habitat for the Elderly
- Overcoming Barriers to Nanofluids Market Uptake (NANOUPTAKE)

COUNTRY REPRESENTATION IN COST ACTIONS

LEADERSHIP POSITIONS IN COST ACTIONS

A CLOSE LOOK AT LEADERSHIP POSITIONS

Catalin Daniel Galatanu, Full Professor, Technical University of Iasi

“COST Actions represent an important connection for the scientific community. Romania was isolated for many years, and COST is a practical way to work together with scientists from Western Europe. In addition, COST opens the possibilities to participate in important research programs.”
NETWORKING ACTIVITIES IN ROMANIA

- Short-term scientific missions
- Training schools

BUDGET RECEIVED

€ 580,997.47

PARTICIPATION IN NETWORKING ACTIVITIES

- Short-term scientific missions
- Trainees
- Trainers

INDIVIDUAL PARTICIPATION IN ALL ACTION ACTIVITIES

- Women
- Men
- Younger researchers

PARTICIPATION PER COUNTRY REGIONS

- București - Ilfov: 250
- Nord-Vest: 110
- Nord-Est: 93
- Centru: 92
- Vest: 75
- Sud-Est: 39
- Sud - Muntenia: 9
- Sud-Vest Oltenia: 1
In Romania, like in other East European countries, the money allocated for research studies is quite reduced, so COST represents a good opportunity for scientists to be together with their colleagues from West Europe in trying to cooperate in the research of diseases affecting many people.

Carmen Michaela Cretu, Associate Professor, Romanian Association of Hidatidology
